

RAHAF SAAD ALSHAMMARI

FRONT-END DEVELOPER | UI/UX DESIGNER

Hail / Riyadh, Saudi Arabia | +966500858603 | Rah2fals@gmail.com | [Github](#) | [LinkedIn](#) | [My Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience in UI/UX design and front-end development, gained through a professional cooperative training placement at JODAYN Information Technology Company. Skilled in designing user-centered interfaces in Figma and building responsive web applications using React.js, Angular, and TypeScript. Experienced in Agile workflows and collaborative product development. Seeking a Fresh Graduate opportunity in UI/UX Design or Front-End Development within an innovative and growth-driven environment.

EDUCATION

University of Hail — Bachelor of Software Engineering 2021 – 2026 | GPA: 3.386 / 4.00

EXPERIENCE

JODAYN Information Technology Company

Cooperative Trainee — Business Development Sector – 7 Months

- Designed multiple interfaces and system screens for Anan System, a company digital product.
- Improved usability and navigation flow through user-focused interface design using Figma.
- Collaborated with cross-functional teams to meet project deadlines and business requirements.
- Participated in product enhancement discussions, user research sessions, and solution planning.
- Translated wireframes into production-ready React.js screens, ensuring design fidelity.

University of Hail

Student Employee — College of Computer Science & Engineering – Sep 2022 – Jun 2023

- Supported daily college operations and administrative workflows within the department.
- Assisted internal departments with organised task execution and coordination.
- Contributed graphic design work for 3 student clubs, creating visual materials for events and campaigns.

PROJECTS

SparkHub System

Graduation project — platform for Saudi university student clubs to centralise workshops, events, and activities. Led full UI/UX design and Figma design system.

SkillUp Platform

React.js skill development platform with Firebase backend, enabling role-based learning, course management, and progress tracking. Built for JODAYN Company.
