PROFESSIONAL SUMMARY

Software Engineer with a growing specialization in cloud computing, combining front-end development experience (React.js, Angular, TypeScript) with practical cloud infrastructure skills across AWS and Microsoft Azure. Completed a 240-hour Microsoft Azure Cloud Computing Bootcamp with the Saudi Digital Academy (SDA) in partnership with WeCloudData, holds an AWS Certified Cloud Practitioner certification, and is training on a dedicated AWS track with the Ministry of Communications and Information Technology (MCIT). Experienced in deploying cloud-based applications using Docker, Terraform, and Nextcloud, and integrating REST APIs, Firebase, and AI-powered features into production-ready products. Comfortable with Linux, the command line, and version control, with a strong interest in cloud infrastructure, automation, and scalable software delivery.

EDUCATION

University of Hail — Bachelor of Software Engineering

2021 – 2026 | Second Class Honors | GPA: 3.41 / 4.00

Saudi Digital Academy (SDA) — Intensive Cloud Computing Bootcamp (Microsoft Azure), in partnership with WeCloudData

240 Hours

EXPERIENCE

JODAYN Information Technology Company — Cooperative Trainee, Business Development Sector

8 Months

- Designed and delivered 12+ system screens and interfaces for Anan System, a company digital portal solution, using Figma with full design fidelity from wireframe to production.
- Developed and integrated front-end components with backend services via REST APIs, ensuring seamless data flow across 2 major releases.
- Collaborated with cross-functional teams — developers, product managers, and QA — within Agile/Scrum sprint cycles, translating wireframes into production-ready React.js screens.

University of Hail — Student Employee, College of Computer Science & Engineering

Sep 2022 – Jun 2023

- Supported daily college operations and administrative workflows; produced graphic design assets for 3 student clubs, covering 5+ events and campaigns.

PROJECTS

Cloud File Sharing & Collaboration Platform (Cloud Project)

- Built a cloud-based file sharing and collaboration platform using Nextcloud, hosted on Microsoft Azure, as part of a team project.
- Gained practical experience in cloud infrastructure, containers, automation, and deployment using Microsoft Azure, Terraform, Docker, Docker Compose, Bash, PostgreSQL, Redis, and Caddy.

OTT Platform — Streaming Web App

- Built a front-end OTT (streaming) platform using React, Next.js, and Tailwind CSS, achieving 100% design fidelity against a provided Figma design.
- Integrated the TMDB API to fetch and display movie and show data, showcasing strong front-end development and API integration skills.

Tam Platform — Task & Project Management System

- Built with React.js and Firebase to manage tasks, track workflow progress, and measure team KPIs and achievement levels across projects.

Masareefy — Personal Finance iOS App

- Built an iOS application for managing daily and personal expenses, integrating Firebase for authentication, real-time data storage, and AI-powered savings tools.
- Designed AI-driven features that analyze spending patterns, provide personalized insights, and motivate saving through gamified challenges.

SparkHub System — Graduation Project (Project Lead)

- Led requirements analysis and system design for a scalable portal platform centralizing university club events; built a responsive Angular front-end and coordinated integration with Django backend services.

SkillUp Platform (Built for JODAYN Company)

- Built a React.js web application with component-based architecture, REST API integration, and a Firebase backend for role-based learning and real-time progress tracking.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (Cloud Practitioner), Microsoft Azure, Docker & Docker Compose, Terraform, Linux & Command Line, Networking Fundamentals, Nextcloud, PostgreSQL, Redis, Caddy

Development: React.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Firebase, REST API Integration, Component-Based Architecture

Tools & Methods: Git & Version Control, Agile/Scrum, Azure DevOps, Trello, Cross-Functional Team Collaboration

Design & UX: Figma, Wireframing & Prototyping, Design Systems, Responsive Web Design

Soft Skills: Problem Solving, Communication & Teamwork, Time Management, Attention to Detail, Adaptability

CERTIFICATIONS

- Cloud Computing Bootcamp Completion Certificate (Microsoft Azure) — Saudi Digital Academy (SDA) | 240 Hours
- AWS Certified Cloud Practitioner
- AWS Training Track — in partnership with the Ministry of Communications and Information Technology (MCIT)
- Interactive & Dynamic Front-End Development using React.js — Tuwaiq Academy
- Foundations of UX Design — Google
- UI/UX Design Using Figma — Udemy
