

RAHAF SAAD ALSHAMMARI

SOFTWARE ENGINEER | FRONT-END DEVELOPER | UI/UX DESIGNER |

Hail / Riyadh, Saudi Arabia | +966500858603 | Rah2fals@gmail.com | [Github](#) | [LinkedIn](#) | [My Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience in UI/UX design and front-end development, gained through a 7-month professional cooperative training at JODAYN Information Technology Company. Skilled in building scalable, responsive web applications and portal solutions using React.js, Angular, and TypeScript. Experienced in integrating front-end interfaces with backend services via REST APIs, applying component-based Seeking a Front-End Developer role contributing to high-quality portal .architecture, and collaborating with cross-functional teams in Agile environments solutions within an innovative and growth-driven environment.

EDUCATION

University of Hail — Bachelor of Software Engineering 2021 – 2026 | GPA: 3.4 / 4.00

EXPERIENCE

JODAYN Information Technology Company

Cooperative Trainee — Business Development Sector – 7 Months

- Designed and delivered 12+ system screens and interfaces for Anan System, a company digital portal solution, using Figma with full design fidelity from wireframe to production.
- Integrated front-end components with backend services via REST APIs, ensuring seamless data flow and reducing handoff revisions across 2 major releases.
- Troubleshoot and resolved UI inconsistencies across browsers and devices, improving application stability and ensuring a consistent user experience.
- Collaborated with cross-functional teams including developers, product managers, and QA to meet project deadlines and business requirements within Agile/Scrum sprint cycles.
- Participated in product enhancement discussions, user research sessions, and solution planning, contributing UX insights that shaped core product features.
- Translated wireframes into production-ready React.js screens,maintaining 100% design fidelity throughout the development lifecycle.

University Of Hail

Student Employee — College of Computer Science & Engineering – Sep 2022 – June 2023

- Supported daily college operations and administrative workflows within the department.
- Assisted internal departments with organised task execution and coordination.
- Produced graphic design assets for 3 student clubs, covering 5+ events and campaigns.

PROJECTS

SparkHub System

Graduation Project, Developed a scalable portal platform that centralizes university club events, workshops, and activities in a single system. Led project execution, requirements analysis, and system design, while developing a responsive Angular Front-End and coordinating integration with Django back-end services.

SkillUp Platform

React.js web application built using component-based architecture and REST API integration, featuring Firebase backend for role-based learning, course management, and real-time progress tracking across 6+ course modules. **Built for JODAYN Company.**

TECHNICAL SKILLS

Design & UX

- UI/UX Design
- Figma
- Wireframing & Prototyping
- Design Systems & Component Libraries
- User Research & Usability Testing
- Responsive Web Design
- Information Architecture

Tools & Methods

- Git & Version Control
- Agile / Scrum
- Azure DevOps
- Trello
- REST API Integration

Front-End Development

- React.js
- Angular
- TypeScript
- JavaScript (ES6+)
- HTML5 & CSS3
- Firebase
- REST API Integration
- Component-Based Architecture

Soft Skills

- Communication & Teamwork
- Problem Solving
- Time Management
- Attention to Detail
- Self-Learning & Adaptability

CERTIFICATIONS

- Interactive & Dynamic Front-End Development using React.js — Tuwaiq Academy
- Foundations of UX Design — Google
- Application Development — Hash Plus

LANGUAGES
